HOW TO USE THIS CHART

This is your own record of the course — not a replacement for your Standard Celeration Chart, which is still where your **daily** numbers go. Fill in a row here the day you first **meet its aim**: the date, your correct/min and error/min from that sprint, and your initials. Rows tagged **PROBE** are the benchmark and checkpoint pinpoints — your teacher runs these on a schedule, so check with them before recording one.

Example of a completed row:

4	Drill: a ;	$\geq 40 / \leq 2$	Sep 12	46	1	J.W.
---	------------	--------------------	--------	----	---	------

#	Pinpoint	Aim → correct/ err per min	Date met	Correct/min	Err/min	Init.
Benchmark Probe — Entry & Graduation						
1	Benchmark sentences PROBE	$\geq 150 / \leq 2$				
Stage 1 — Home Row: F & J						
2	Drill: f j	$\geq 40 / \leq 2$				
Stage 2 — Home Row: D & K						
3	Drill: d k	$\geq 40 / \leq 2$				
Stage 3 — Home Row: S & L						
4	Drill: s l	$\geq 40 / \leq 2$				
Stage 4 — Home Row: A & ;						
5	Drill: a ;	$\geq 40 / \leq 2$				
6	Words	$\geq 70 / \leq 2$				
Stage 5 — Home Row: G & H (home row complete)						
7	Drill: g h	$\geq 40 / \leq 2$				
8	Words	$\geq 70 / \leq 2$				
Checkpoint A — Home Row Review						
9	Letters (whole home row) PROBE	$\geq 70 / \leq 2$

43	Passage: Alice in Wonderland	≥90 / ≤2				

Aims are starting hypotheses, not pass/fail cutoffs — see your Standard Celeration Chart for how you're really trending. **PROBE** rows are the benchmark and the three checkpoints. Generated from the revision-2 pinpoint set (tests.js) — keep in sync if your class's pinpoints change.
